

Lathe Machinist

Company Description

Mach Machine, Inc is a state-of-the-art CNC machining and mechanical engineering facility located in Hudson, MA. The company is AS9100D/ISO 9001-2015 certified, ITAR registered, and an FFL company. The new facility has a temperature-controlled environment.

Role Description

This is a full-time on-site role for an experienced Lathe Machinist. The individual should be able to set-up and program CNC lathes with minimal supervision but know when to ask for help.

Minimum Qualifications

- Ability to understand blueprints and apply machining principles.
- Create G-code from print and solid models (including 2, 3 and 4 axis programming) using Bobcad or Solidworks
- Must be proficient in the use of gauges and measuring tools.
- Good verbal and written communication skills. Must be able to communicate effectively in English.
- Ability to work collaboratively and independently.
- Strong attention to detail and problem-solving skills.
- Minimum 5 years' experience in a fast-paced technical industry.
- Basic understanding of GD&T tolerances.
- Ability to lift 40 pounds, bend, sit and stand when conducting daily job duties.

Additional Preferred Qualifications

- Working knowledge of MS Word and Excel
- Previous experience working in an ISO certified company.

Compensation is based on experience.

Benefits include:

- Company match 401K plan
- Excellent health insurance
- Paid time off
