

## Parts Technician

### **Company Description**

Mach Machine, Inc is a state-of-the-art CNC machining and mechanical engineering facility located in Hudson, MA. The company is AS9100D/ISO 9001-2015 certified, ITAR registered, and an FFL company. The new facility has a temperature-controlled environment. We pride ourselves on being a fully integrated company, capable of transforming customer requirements into final production designs all in-house, utilizing the latest technology and software. The hours are 7:00 am-3:30 pm Monday-Friday.

### **Role Description**

This is a full-time on-site role for a Parts Technician. The individual should be able to deburr and clean machined parts with minimal supervision but know when to ask for help.

- The removal of burrs, sharp edges, and excess material from machined parts.
- Cleaning parts to ensure they meet quality standards and are prepared for subsequent production stages, assembly, or shipment.

### **Additional Preferred Qualifications**

- Communicate effectively with the production team to meet deadlines and production goals.
- Good verbal and written communication skills. Must be able to communicate effectively in English.
- Ability to work collaboratively and independently.
- Professionalism and organization skills.
- Attention to detail, safety awareness, and familiarity with machining processes.
- Ability to lift 50 pounds, bend, sit and stand when conducting daily job duties.

### **Compensation**

- \$20.00-\$23.00 per hour

### **Benefits include:**

- Company match 401K plan
- Excellent health insurance
- Paid time off
